Exporting Quality and Reliability Across Global Markets

Export Crusaders

About Company

“Expanding trade, one export at a time.”

Export Crusaders, established in 2020, is a dynamic trading company based in India, specializing in the export and import of steel intermediate products across India and the Middle East. With a foundation built on quality, reliability, and a licensed MTT operation, we deliver a diverse range of products to meet evolving market demands. Our commitment to excellence drives us to expand beyond steel, providing versatile solutions that cater to a global clientele, while fostering strong partnerships grounded in trust and mutual growth.

At Export Crusaders, we believe in fostering strong relationships with our clients and partners, built on mutual trust and shared goals. As we continue to grow, our focus remains on expanding our reach while maintaining the personalized service and high quality that our customers have come to expect.

Vision & Mission

Export Crusaders

At Export Crusaders, our values guide everything we do. We are committed to delivering quality products that meet the highest industry standards, ensuring that our customers receive only the best. Integrity is at the core of our business, fostering transparency and building trust with our partners and clients.

■ Vision

To become a leading global trading company, recognized for delivering quality and innovation in exports, while expanding our product offerings to meet diverse market needs. We aim to foster sustainable growth and build long-term partnerships across international markets.

■ Mission

Our mission is to provide top-quality products and reliable trading solutions to our customers by leveraging our expertise, network, and MTT license. We strive to ensure seamless, transparent, and timely delivery of exports, while continuously expanding our reach and adapting to changing industry trends.

Export Crusaders

Our Products

Export Crusaders is dedicated to delivering high-quality steel intermediate products that meet the diverse needs of our global clients. Our current product line includes square billets, round billets, rebars, and MS plates, each sourced from reputable manufacturers and crafted to meet international standards. We focus on supplying reliable materials for various industrial and construction applications, ensuring that our clients receive consistent quality and value in every shipment.

Square Billet

Square billets are a key raw material used in the manufacturing of various steel products, including structural components, bars, and rods. At Export Crusaders, we ensure that our square billets meet stringent quality standards, providing consistency in shape and chemical composition for efficient downstream processing.

Round Billet

Round billets serve as the foundation for producing seamless pipes, wire rods, and a variety of other steel products. We supply high-quality round billets that are precision-engineered to offer uniformity and strength, making them suitable for demanding industrial applications.

Rebar

Our rebar products are designed to reinforce concrete structures, enhancing their tensile strength and durability. Available in various grades and sizes, our rebars meet industry specifications, ensuring they provide optimal support in construction projects ranging from residential buildings to large-scale infrastructure.

MS Plate

Mild Steel (MS) plates are widely used across industries for fabricating machinery, structural components, and general engineering purposes. We offer high-grade MS plates that combine strength and versatility, making them ideal for a broad spectrum of applications in construction and manufacturing.

Export Crusaders

Square Billets

Square billets are essential building blocks in the steel industry, used extensively in the production of structural components, bars, and various forged products. At Export Crusaders, our square billets are sourced from trusted suppliers, ensuring uniformity in shape, chemical composition, and mechanical properties. The consistency in our billets allows for efficient manufacturing processes and high-quality end products, making them ideal for applications such as construction, automotive, and heavy machinery manufacturing. With a commitment to quality, we provide square billets that meet international standards and support a wide range of industrial requirements.

Applications:

- *Structural steel products*
- *Bars and rods*
- *Forged components*

Export Crusaders

Round Billets

Round billets are crucial for producing seamless pipes, wire rods, and other steel products that require a circular cross-section. Export Crusaders offers high-quality round billets known for their uniformity, strength, and excellent machinability. Our round billets are carefully selected to meet stringent industry standards, ensuring reliable performance in demanding applications. Whether it's for rolling into wires, machining into specific shapes, or creating tubular structures, our round billets deliver the quality and consistency needed for superior results across various sectors.

Applications:

- *Seamless pipes*
- *Wire rods*
- *Mechanical components*

Export Crusaders

MS Rebar

Reinforcing bars, commonly known as rebar, are essential for strengthening concrete structures and providing the necessary tensile strength to withstand various loads. Export Crusaders supplies high-grade rebars in different sizes and grades to suit diverse construction needs, from residential buildings to large infrastructure projects. Our rebars are manufactured to meet stringent quality standards, ensuring enhanced durability and resilience in concrete applications. Designed to offer optimal bonding with concrete, our rebars improve the longevity and safety of any construction project.

Applications:

- *Concrete reinforcement*
- *Residential, commercial, and industrial construction*
- *Infrastructure projects (bridges, highways, etc.)*

Export Crusaders

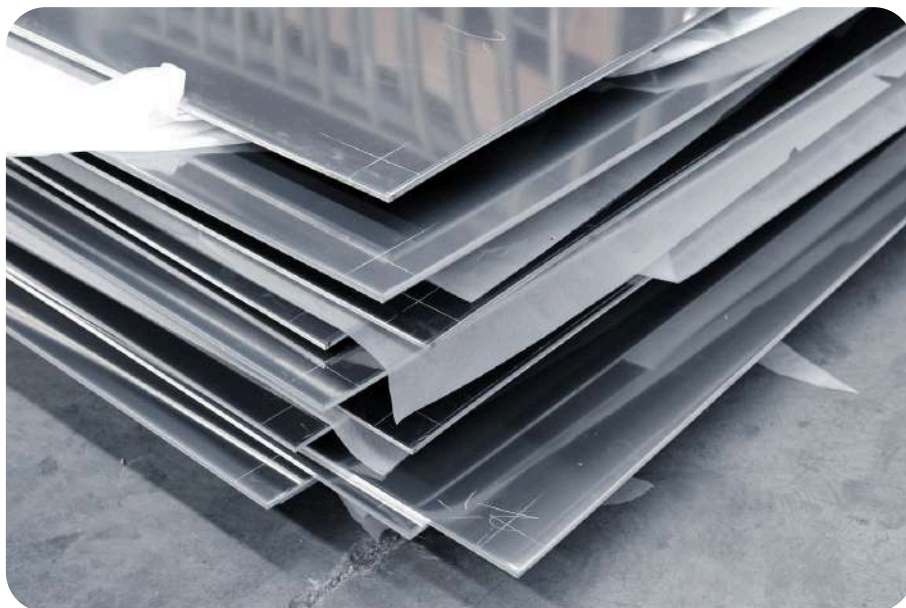

MS Plate

Mild Steel (MS) plates are versatile products used across industries for fabrication, structural applications, and general engineering purposes. Export Crusaders provides top-quality MS plates that combine strength, ductility, and machinability, making them suitable for a wide range of uses. Our MS plates are sourced from reliable manufacturers and are available in various thicknesses to meet specific project requirements. They are commonly employed in the fabrication of machinery, shipbuilding, structural frameworks, and industrial equipment.

Applications:

- *Machinery fabrication*
- *Structural components*
- *Shipbuilding*
- *Industrial equipment manufacturing*

Export Crusaders

Where We Work

Export Crusaders is dedicated to bridging markets by supplying high-quality steel products to the Middle East and African region. With a strong focus on Djibouti, Saudi Arabia, and the UAE, we are committed to meeting the diverse needs of these rapidly growing markets through reliable, timely, and efficient export services.

Our approach is centered around understanding the unique demands of the Middle Eastern and African steel industries. By closely collaborating with local partners, we deliver products that meet international quality standards while addressing regional requirements. From construction projects in Saudi Arabia to industrial developments in the UAE and Djibouti, our products play a crucial role in supporting infrastructure growth across the region.

As we continue to grow, we remain dedicated to expanding our reach in these markets, delivering more than just steel. We aim to foster sustainable relationships by providing personalized solutions that cater to specific industry needs. Our team's expertise ensures that every shipment is handled with care, from sourcing to delivery, allowing our clients to focus on their core projects with confidence.

At Export Crusaders, we understand the importance of efficient logistics and dependable supply chains in international trade. Our experienced professionals work tirelessly to ensure timely delivery and smooth customs clearance, helping clients in Djibouti, Saudi Arabia, and the UAE maintain seamless operations. Together, we are building a future of growth and development across the Middle East and Africa.
